### Career Objective

As a passionate and self-motivated software engineer, I'm eager to join a dynamic team where I can contribute and grow as a Full-Stack Developer. With hands-on experience in both front-end and back-end development, combined with a strong interest in cloud infrastructure and modern frameworks, I'm ready to learn, adapt, and deliver high-quality software in collaborative, goal-driven environments.

Currently expanding my knowledge in Kubernetes and AWS to strengthen my DevOps and cloud deployment skills. I'm committed to continuous learning and always looking for opportunities to grow both technically and professionally.

### Skills

Frontend: HTML5, CSS3, SCSS, JavaScript, TypeScript, ReactJS, Next.js, MUI, TailwindCSS, Storybook

Backend: Node.js, ExpressJS, TypeScript, PHP (CodeIgniter), RESTful APIs

Database: MySQL, PostgreSQL, SQL Server, MongoDB

DevOps & Tools: Docker (basic), Linux, Git, Bitbucket, GitHub, GitLab, Jira

Others: Agile/Scrum, Figma, Firebase, Swagger

Languages: Vietnamese (native), English (basic)

### Experience

Freelancer — Full-Stack Developer

Feb 2024 – Present | Ho Chi Minh City (Remote)

- Self-directed learning in DevOps tools, Docker, and CI/CD pipelines.
- Exploring Kubernetes and AWS to support scalable application deployment.
- Building and maintaining personal full-stack projects using React, Node.js, and TypeScript.
- Teaching assistance for young learners, focusing on web fundamentals and creative problem-solving.

Hanbiro Vietnam — Web Developer (AngularJS, PHP CodeIgniter)

Oct 2023 – Feb 2024 | District 7, HCMC

- Developed and maintained features for internal web apps using AngularJS and CodeIgniter.
- Integrated RESTful APIs, debugged UI/UX and data rendering issues.

- Followed full SDLC from analysis to deployment.
- Ensured responsiveness and bug-free experience across platforms.

Nova E-Force — ReactJS Developer

Jan 2022 – Aug 2023 | District 10, HCMC

- Built and improved UI for real estate showcase platforms.
- Integrated REST APIs and collaborated across teams (Design, QA, Backend).
- Worked with Storybook to create reusable, testable components.

## Personal Projects

Social Network App (ReactJS, MUI, Firebase)

GitHub: <https://github.com/pulmaWave/SocialNetwork>

- Built a basic social networking site with real-time updates, authentication, and profile management.

NodeJS REST API (Node.js, Express, TypeScript, Swagger)

Live Demo: <https://nodejs-express-0pne.onrender.com> | GitHub:

[https://github.com/pulmaWave/Nodejs\\_Express\\_API](https://github.com/pulmaWave/Nodejs_Express_API)

- Developed RESTful API for CRUD operations, documented with Swagger.

## Education

Post and Telecommunications Institute of Technology (2023 – 2028)

Bachelor of Information Technology

Ho Chi Minh City University of Technology and Education (2016 – 2020)

Bachelor of Software Technology

## Why Me?

- Always up-to-date with new technologies, even outside full-time employment.
- Comfortable with React + Node + TypeScript stack.
- Currently learning Kubernetes and AWS to broaden cloud and deployment expertise.
- Strong problem-solving skills and attention to detail.
- Ready to learn and take on new challenges with a proactive mindset.
